

Setting Up Automatic Recording (With IR blaster)

(See reverse for instructions without IR blaster)

1. Power on VCR and insert blank tape; then power off VCR.
2. Using the remote HTC has provided access the on-screen TV guide by pressing the "GUIDE" button on the remote.
3. Now using the blue arrow buttons highlight and select the program you would like to start recording.
4. Once program is highlighted press "Select" on the remote; a new window will pop up. Using the right arrow key on the remote highlight "Actions" and press "Select". A new window will pop up again. Using the "Down" arrow key, highlight "Record This Show" and press "Select"; a new window will pop up.
 - a. Now highlight and "Select" tuning options for this channel and time.
 - i. Once Only- One time only
 - ii. Mon-Fri – Tune to channel everyday at this time
 - iii. Once a Week – Tune to channel once a week at this day/time
 - b. Once selected, a message will pop up stating that the program is select to be recorded.
 - c. Now keep tapping "Exit" until TV picture comes back on.
5. Automatic recording is now set up for the program. (No further VCR setup is necessary. The VCR will power on record the show, then power off when done.)
6. To play back the VCR tape, power on VCR and tune TV to either channel (3 or 4) and view tape as usual.
7. To watch TV again, power off VCR and set TV back to the stream the TV was set to (6, 7, or 13).
